

cURLin' for Docs

Eric Oestrich

@ericoestrich

oestri.ch

smartlogicsolutions.com

Have an API for you API

```
$ curl -H "Accept: text/docs+plain" http://rad-example.herokuapp.com/orders
```

```
Getting a list of orders
```

```
-----
```

```
Parameters:
```

```
* page - Current page of orders
```

```
...
```

That's so cool

Tests are your docs

A few gems away

HTML output as well

rad-example.herokuapp.com
